THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

***Allowable Subject Matter***

3. Claims 1-12 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art teaches an ultrasonic apparatus for calculating the cross-sectional area of a blood vessel (see US Patent No. 5,339,816, column 10, lines 46-63; also see JP 11-076233 as cited by applicant), but fails to disclose that cross-sectional area is calculated on an orthogonal section, and that the calculation is based on the respective

positions of the respective portions of the wall of the blood vessel that correspond to first supersonic-wave elements and are calculated by a first wall-position calculating means, and respective positions of the respective portions of the wall of a blood vessel that correspond to second supersonic-wave elements and are calculated by a second wall-position calculating means.

Further, the prior art teaches an ultrasonic apparatus for determining a cross-section of a vessel, and if the cross-section is found to be an ellipse, the cross-section can be computed using a calculated incidence angle (see US Patent No. 6,261,233, column 19, lines 2-44; column 19, line 61-column 20, line 5). However, they fail to disclose that the cross-section is calculated based on respective positions of respective portions of the wall of the blood vessel that correspond to first supersonic-wave elements and are calculated by first wall-position calculating means, and respective positions of respective portions of the wall of the blood vessel that correspond to second supersonic-wave elements and are calculated by a second wall-position calculating means. They also do not disclose that the incidence angle is calculated by a center-axis calculating means and the direction in which a Doppler supersonic-wave element emits a supersonic wave toward the blood vessel.

As such, the prior art fails to show a blood-vessel-shape calculating means for calculating a shape of a blood vessel on an orthogonal section thereof, based on the respective positions of the respective portions of the wall of the blood vessel that correspond to first supersonic-wave elements and are calculated by a first wall-position calculating means, and the respective positions of the respective portions of the wall of

Art Unit: 3768

a blood vessel that correspond to second supersonic-wave elements and are calculated by a second wall-position calculating means, in combination with the other claimed elements. Further, the prior art does not suggest or teach a center-axis calculating means for calculating based on respective positions of the respective portions of a wall of a blood vessel that correspond to first supersonic-wave elements and are calculated by a first wall-position calculating means, and respective positions of the respective portions of a wall of the blood vessel that correspond to second supersonic-wave elements and are calculated by a second wall-position calculating means, respective center points of respective sections of the wall of the blood vessel on respective measuring sections of first and second arrays, and calculating a center axis of a blood vessel, based on respective center points of respective sections of a wall of a blood vessel on respective measuring sections of the first and second arrays; a relative-angle calculating means for calculating an actual relative angle between the center axis of a blood vessel, calculated by the center axis calculating means, and the direction in which a Doppler supersonic-wave element emits a supersonic wave toward the blood vessel; and a blood flow velocity correcting means for correcting, based on the actual relative angle calculated by the relative-angle calculating means, the velocity of the blood flow calculated by the blood-flow-velocity calculating means, in combination with the other claimed elements.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to KATHERINE L. FERNANDEZ whose telephone number is (571)272-1957. The examiner can normally be reached on 8:30-5, Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Casler can be reached on (571) 272-4956. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
